Dear Mr President:

Mr B. Sadowski,
appointed to a Fellowship (Teaching)
in Mathematics in June last, delayed,
on account of ill-health, accepting or de-
clining the appointment. He now finds
it impossible to accept. May I ask
that Mr H. E. Sheppard, a graduate of
1918, first in First-Class Honours, be
appointed in place of Mr Sadowski?

Professor A. T. Delury,
Department of Mathematics.

Dear Professor Delury:

I have just received a letter from Provost Hackiem asking for duplicate lectures in Trinity College in first year Mathematics. Can you look into this matter and oblige,

Yours sincerely,

President.

Dear Mr. President

May I recommend to you for appointment to a Fellowship (Teaching) in Mathematics for the year 1919-1920 Mr. E. O. Hall a graduate of 1919.

May I also say to you that the rearrangement of work, due to the large classes, particularly in the Faculty of Applied Science, promises demands of the staff in Mathematics beyond its strength. If financial provision were made for the payment of some special help from without and perhaps also for extra work on the part of the Fellows in the Department who are now doing all that we can ask of them on their present salary, I think the demand could be met. Yours sincerely

Dear Professor Seligman:

In view of the fact that a very large number of the lectures that are to be given to the Bankers and to the applicants who are in business are in the Department of Political Economy I wish to add Professor Kemmerer to the small committee of three I have asked to deal with these matters.

Yours sincerely,

President.

Professor E. R. A. Seligman.

Sir Robert Falconer, K.C.M.G.,

President, University of Toronto.

Dear Sir:

The Faculty of Education proposes to conduct Summer Classes for teachers who are proceeding to the degrees in Pedagogy. Two courses are to be offered to be given by Dean Pakenham and Professor P. Sandiford. These names are sent on to you through the Committee on University Extension in order that the appointments may be made at an early meeting of the Board of Governors.

Yours sincerely,

Alfred T Delury

P. S. May I add that the estimates for next year — University Extension — are based on a salary of $300 for each instructor in the Summer Session. This sum was mentioned last year as being inevitable in view of increases in the regular salaries last year.

Dear Mr. President,

I beg to thank you for allowing me to see the letter of Messrs G. E. Sleckert & Co, touching certain pamphlets &c, held by a colleague and not yet paid for. Irritation is warranted, but I have no responsibility in the matter. There is something equivocal in nearly every sentence of the letter of Messrs Sleckert & Co. Whether they received a reply from me or not, I sent a reply on at least two occasions, the last time telling them how they might proceed. I cannot however maintain a permanent correspondence on a matter of this kind. A drama element in it is that I am receiving books from them, and remitting for them every little while. I am writing to them and shall send you a copy of the letter. Their letter is enclosed.

Yours very truly

Alfred T. DeLury
